

Robert Karlsson

You haven't played particularly well in your last couple of tournaments, but today you set the course record. What have you turned around to get your game just right?

I didn't know I set the course record! I've been working hard this week with Mark Saxton, my swing coach, we did a little bit of extra work on Monday and the last few months I've been working quite a bit. Even though I haven't put it together I've been trying.

No wins on the PGA Tour Champions, how important is tomorrow to get your first win and senior major?

Tomorrow is just another day, I'm sorry. There's a lot of good players in this field so I need to focus on my game and try and keep what I'm doing going then we'll see what happens.

Your whole group played well today. How important is the team momentum for the round?

It's always easier when you're playing well together and everyone is having a good time. When everyone is enjoying themselves you have the ability to have fun.
